

High Performance Bio Water for Cleaning and Disinfecting Beer Bottles and Beer Pipe Lines

Description

GC Bio Water is a high-performance soluble water for cleaning which has no color and no odor.

Key Properties:

- Specifically designed for cleaning of Bottles, Machines and Taps in the Brewing industries.
- Can be used multiple times guaranteeing consistency in the cleaning results
- It is easy to store for longer periods as it can maintain excellent pH stability
- Cleans, Disinfects and Sanitizes giving excellent results and economy.
- Our Bio Water contains Kaempferol Tetrahydroxy Flavone which is a natural Type found in a variety of plants metabolite. Flavanol which is a Conjugate acid and Kaempferol Oxonian.
- Being Non-toxic and 100% natural it is tested and proven Safe on Skin.
- Safe to use on all surfaces such as Steel, Iron, Aluminium, Copper, Plastic, Rubber etc...

The Key Innovation of Bio Water Combines the Power of Acidic Cleaning found in Nature with our Powerful Alkaline Formulation to give One Bio Liquid. The Bio Water has Excellent Properties to maintain the pH at Certain Conditions.

Benefits

- Eco friendly and safe to drain out the water after usage.
- Since has an excellent stability of pH can be used 3 times more repeatedly.
- Non Flammable – No Storage risks.
- Patented product
- Contributes to a Eco friendly and Hygiene cleaning process
- Can help in increasing productivity by streamlining the cleaning process.
- Saves Time and Effort by increasing efficiency in bottle wash area and by reducing the cleaning frequency in Tap room areas.

Use Instruction

Bottle Wash - Level 3 & 4

- Ratio of Biowater and RO Water mix – 1 : 7
- Soak the Bottles for 15mins to 20mins
- Brush the inside and Rinse the Outside
- Bottles ready to get into the main Washer

Advantages:

- Cleans faster and effectively
- Thus increases the number of bottles getting into the production line
- This will add more revenue

Tap Rooms and Beer Pipe Lines

- Ratio of Biowater and RO Water - 1 : 3
- Let the mix stay in the pipe lines for minimum 5mins to 10mins
- When open the complete contamination is flushed out in seconds.

Advantages:

- Adds revenue by reducing the frequency of cleaning Beer Pipe Lines
- Eliminates the usage of Chlorine which is strong and harmful chemical
- Removes Bad Odor from the Pipe Lines thus giving flowing Beer Fresh

High Performance Bio Water for Cleaning and Disinfecting Beer Bottles and Beer Pipe Lines

Technical Data

Appearance	Smell	Natural Ingredient
Free Flowing Colourless Liquid	No Odor	Made of Plant Enzymes - Kaempferol

This figures are typical values and should not be interpreted as specifications.

Product

Name	Shelf Life
GCW - BIOBREW - BW - 153	36 Months

Product Compatability

Suitable Area For Use	Ratio
Glass Bottles, Metals, Plastic, Rubber etc...	Bottle Wash - 1:7 Beer Pipe Lines - 1:3

Safe Handling

Non Toxic and Non Flammable	Storage
The complete guidance on the handling of the product is mentioned in the Safety Data Sheet Store in original container. Avoid extreme temperatures.	

Safety Reminder

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and MSDS contain hazard warnings, precautionary statements and first aid procedures.
